Wireless IN-EAR MONITOR

System

ASHTON IEM200

The IEM200 in-ear wireless monitor system has been designed to give the performer extra flexibility and options on stage. Switch between mono and stereo transmission, with 160 selectable channels for transmission clarity and multiple receiver set-up (Add-on pack RC200 available for \$199 - see below). This transmitter & body pack receiver comes supplied with high quality noise cancellation earphones - all packed in a tough metal case for added protection.

RRP \$449
