and more

# Portable PA system with mixer and effects in a single system

## State-of-the-art digital technology delivers quality, efficiency, and ease

### Power and quality

With Roland's cutting-edge digital technology onboard, the BA-330 delivers a tight, pro sound and powerful punch with the maximum SPL\* of 109dB, even on battery power. It also has built-in digital effects for sweetening the sound.

\*SPL: Maximum output sound pressure level (calculated) at one meter.

### Fill a large room with sound

The BA-330 has power to spare. Perform live for approximately 80 people on a single system. For larger venues, connect two systems via Studio Link.

### Spacious stereo sound

The BA-330's four 16cm speakers and dual tweeters, angled left and right, provide a full-spectrum stereo sound.

### Comfortable and easy set up

With its tilt-back stand, the BA-330 can be set to the perfect angle for performance. Plug in a variety of gear, including mics, electronic instruments, and digital-audio devices. And since it's battery powered, the BA-330 can be used instantly anywhere!

### Convenient all-in-one operation

**Supports a wide variety of inputs**  
Connect mics, instruments, and audio devices, and instantly mix them with the handy onboard controls.

**Anti-feedback function**  
Provides "howl-free" performances, even at high volumes.

**Battery checker**  
Displays battery-power status for peace of mind during performance.

**Output mode switching (MAX/ECO mode)**  
Use ECO mode for longer battery-power life.

**Stereo effects and EQ**  
Built-in reverb/delay/wide effects, plus master EQ.

**LINE OUT jacks**  
Connect to external-audio systems.

**Footswitch jacks**  
Control MUTE on/off and EFFECT on/off via footswitch.

**AC adaptor input**  
**Go Gear Battery or AC Adaptor**  
Power the BA-330 from the DC input jack or use generic rechargeable batteries for up to 24 hours of battery-powered performance.

**Replaceable battery pack for quick battery reloading**

Mixer section

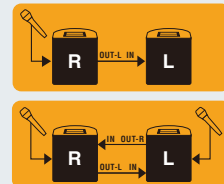

IN/OUT terminal

**Stereo AUX IN** for connecting an MP3 player, CD player, etc.

**STEREO LINK**  
Connect two BA-330s for extra inputs, power, and audio spread.
